

2010 Sauvignon Blanc

Pope Valley is a prime region for growing Sauvignon Blanc. Higher in altitude and warmer than other Napa appellations during the day, it cools off more at night, making it ideal for many varietals. Sauvignon Blanc vines thrive in these conditions yielding intense and flavorful fruit. Our Sauvignon Blanc is the perfect accompaniment to a wide variety of food or it can stand alone as a great sipper. It has flavors of ruby grapefruit and citrus with floral notes followed by a crisp finish.
