Pope Valley, one of Napa's hidden treasures, is home to the Pope Valley Winery. Here you will be treated less like a visitor and more like a friend. The Pope Valley Winery was founded in 1897 by Ed Haus. The original farmhouse and blacksmith's workshop still graces the property. The winery itself is housed in the original historic barn built over a hand dug cave. The Eakle family now runs the winery and lovingly produces 5,000 cases a year of some of the finest wines in the Napa Valley. All of their wines are from estate-grown fruit, with some from vines that are nearly seventy years old. This isn't just a pretty place; this is where some truly amazing wine is made.
